

K-Love is very beneficial to my community and my family. It provides encouraging information and music that my family and friends benefit from on a daily basis. Without KLOVE there would be a lack of quality Christian programming in my community and many people would be discouraged that our government would make changes that limit our access to this fine station. KLove is in the public interest because it provides Christian perspective to the news and positive messages in the music and news that greatly impacts our lives. Without this station, the alternatives are quite limited and provide music that is demoralizing, and unacceptable to our family's world view.
